Nonchalant Neck & Décolletage Caring Cream

Skin care does not stop with the face 😊. Often forgotten are other delicate parts of the body that would also appreciate some love and care. Our neck, for example, is subjected to a lot of stress every day, just think of our smartphone use.

Nurture your neck & décolletage with this nonchalant O/W emulsion enriched with 30% natural emollients. Thanks to the melt-on-touch emollient **SOFTISAN® 378**, this caring cream glides and melts gently on delicate skin areas. In harmony with the nourishing-rich and smooth sensory, the caressing scent envelops your skin in pure comfort.

The strong and reliable back(bone) of this formula concept is the combination of two emulsifiers. The robust and reliable **IMWITOR® 372 P** in interaction with the liquid sunflower-based **IMWITOR® 375** is responsible for strong stability, even at lower water phases.

Treat your skin tonight with a portion of nonchalant care...
